

Network Video Recorder

The innovative DVW Network Video Recorder (NVR) & Software allows users to monitor and record all cameras from all locations anywhere in the world. The NVR contains up to 2.4 TB of storage, DVD-RW, Network capabilities, and options for PTZ, Audio and City-Wide Wireless technology. The NVR and all of its features are backed by a 3 year warranty. Cameras, users and locations are added with the DVW-IP Designer Tool. The Designer Tool also allows users to manage and configure their system remotely with the wizard-based tool. The software also supports multi-views for an unlimited number of cameras, a Motion Detection grid, and quick navigation based upon schematic or geographic layout. The software also allows users to monitor and control the security video system by use of a laptop, PDA or web-enabled phone.

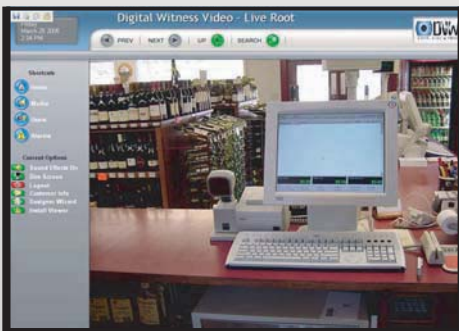

Key Features

- Supports Over 40 Different Types of IP Cameras
- Multiple Views Support an Unlimited Number of Cameras
- Quick Layout Navigation
- Pocket PC Support
- Unlimited Password Identification and Authorization
- Browser-based Solution
- Supports MJPEG, MPEG2 and MPEG4
- Digital Watermarking for video integrity
- Video Encoding
- Motion Detection
- Software is Expandable
- Free 30 Day Trial of Software
- Wireless Networking
